

QHSE Policy

With a view to safeguarding public health, NIB is committed to provide accurate and reliable evaluation of quality of Biologicals. While doing so we are committed to

- Prevent pollution, conserve natural resources and prevent occupational injury and ill health
- Continually improve QHSE management systems and OHS performance
- Comply with applicable legal and other requirements relating to biologicals, environmental aspects and OHS hazards

All employees and people working on behalf of NIB are responsible to effectively implement QHSE management systems

DR SURINDER SINGH

Director
National Institute of Biologicals
